**Helping your pet during  
Firework Season**

1. Provide a den or hiding place for your pet.
2. Use an Adaptil or Feliway diffuser as close to the den or hiding place as possible, or where your pet spends most of its time.
3. Keep dogs and cats inside during fireworks and check that their microchip details are up to date.
4. Walk your dog early in the evening before fireworks start.
5. Ensure windows, doors and cat flaps remain closed during firework season to both prevent pets escaping and reduce the noise.
6. Ensure your cats have enough litter trays (1 litter tray per cat + 1 extra) during firework season, especially if you are keeping them inside.
7. Provide distractions with toys, treats or chews. Draw curtains and put the TV on to mask any noise.
8. Do not punish your pet for being afraid of noise as this will only make things worse.
9. Try not to leave your pets alone when fireworks are going off. Let them hide away and come out when they are ready rather than trying to reassure them.
10. Continue Adaptil or Feliway after the season is over.
